

CRYPTONIAN

Crypto algorithmic trading platform, making high level trading accessible for students and retail traders.

WHAT IS CRYPTONIAN

Cryptonian is a backtesting platform for crypto trading algorithms, while being a crowdsourcing hedge fund aiming to reach the true alpha in understanding the crypto market. Furthermore, it is also an educational tool, with educational materials and other advanced features (including ML models and NLP), making quantitative finance and high-level trading accessible for all.

BACKGROUND

Finance world → Opaque and inaccessible, highly concentrated
Cryptonian → Democratized, making high-level trading accessible for retail traders and students

PURPOSE

To level the crypto trading space, democratizing algorithmic trading
